

UKJCA Prescription to the IJCA Rules

Sail Wardrobe – In addition to the one suit of measured sails that boats are permitted to use per regatta, one extra, measured, secondary spinnaker may be carried on board for use in the event of significant damage to the primary spinnaker. The secondary spinnaker shall be included in the boat's Inventory, along with its associated Royalty Tag Number. If the secondary spinnaker is used the boat must declare this in writing to the race committee within 90 minutes of the final race of the day. The race committee has the right to inspect the damaged sail to ensure the substitution was required.
